

Covid Safety

Do not come to rehearsal if you are not feeling well; specifically if you have: a high temperature, a continuous cough or any change to your sense of smell or taste.

Any prospective members must first provide me with an email address and phone number and make sure I know, in advance, that you're coming to a rehearsal.

If you develop any of these symptoms in the days following rehearsal you **must** inform me **and** take a test. I will inform everyone else and tell you all to do the same.

You may also need to arrange to visit a covid test centre. If you test positive at the centre, you only have to provide my contact details (from choir rehearsal) and then, when I'm contacted, I can share everyone else's contact details from the choir.

If you get a positive test you will need to self isolate for 10 days (counting from the day after your symptoms began). You **must inform me** about that, also. I can then make a decision about the next rehearsal and inform everyone.
